Business Consultant Development Program

Build Your Career. Have Fun. Grow With Us.

Berlin & Frankfurt | Full-time | Unlimited Contract

Start: July

We are hiring recent university graduates to grow the next generation of business consultants through our Business Consultant Development Program.

We believe in pushing high potential people to achieve excellence. Our program is specifically designed to provide a challenging environment to learn quickly and deliver value early, equipping you with the resources to drive your growth as a Business Consultant, and future leader.

Our Business Consulting team builds effective business and operational improvement strategies powered by Veeva's unique industry insights, and market-leading technology. Our offerings are focused on speeding drug development, launching treatments more effectively, and shaping the best engagement for our customers.

Associate Business Consultant

- Collaborate with experienced team members on customer-facing engagements to create high-impact business solutions
- Support and deliver all components of customer engagements (e.g., customer communications, workshops, stakeholder interviews, process and data analysis, managing timelines)
- Collaborate with Business Consultants to create deliverables that optimize customer operating and engagement models, processes, and business performance
- Leverage Veeva's software and data to pull through tangible business and operational solutions

R&D + Quality

Enabling continuous and sustainable innovation across the R&D value chain.

- Support customers pre-drug approval: Clinical, Safety, Regulatory, Quality
- Sample Projects:
  - Time to market strategy
  - Business process optimization
  - Change management
- Realize the Value of Veeva R&D and Quality Software (for example Vault CTMS)

Commercial

Designing the customer engagement model - fit for the digital world.

- Support customers post-drug approval: Sales, Marketing
- Sample Projects:
  - Go-to-Market Launch Planning
  - Key Account Management
  - Field force modeling
- Realize the Value of Veeva Commercial Software (for example Vault CRM)
